

Over the next three years, NativityMiguel Coalition will fulfill its promise of becoming an essential force for member schools. Our strategic plan will achieve this through four priorities:

Advance the Narrative of Our Impact.

NMC will promote more sustainable advancement pathways for schools in the Coalition by identifying best practices of using narratives with data to raise our visibility.

WE WILL DO THIS BY creating a robust system of collecting and disseminating qualitative and quantitative data. This will include stories from graduates to affirm the value of individuals being their authentic selves (redefine success in life).

Build Stronger Connections within Our Community.

NMC will create new ways of helping members—faculty, staff, and all cohorts across the Coalition—connect with each other.

WE WILL DO THIS BY developing leadership within existing cohorts and within the newly formed faculty representative group in order to capture and disseminate the highlights of monthly meetings with everyone.

Lead the DEIJ* Conversation.

NMC will expand DEIJ trainings for faculty, staff, leadership, and supporters in member schools and in the Coalition to extend the work already being done.

WE WILL DO THIS BY offering affordable DEIJ training to member school groups (faculty, staff, leadership) and share elements of the training with those who were not able to attend—to be a leading voice in DEIJ work in NMC and beyond.

*Diversity, Equity, Inclusion, and Justice

Innovate and Adapt Best Practices Rooted in DEIJ Principles.

NMC will provide a Coalition approach based in our commitment to DEIJ principles for sharing and implementing innovative best practices and how they can be adapted by individual schools for their respective cultures.

WE WILL DO THIS BY creating discussions in individual cohort meetings about how to adapt innovative practices to individual schools, and follow-up with findings to all Coalition school members of each corresponding cohort. We will also assess outcomes of any new initiatives to inform progress.
